

The Molecular Aspects of Biological Development (Classic Reprint)

Filesize: 8.49 MB

Reviews

The book is great and fantastic. It is written in straightforward words and phrases rather than difficult to understand. You won't really feel monotony at any time of your respective time (that's what catalogues are for regarding should you question me).
(Payton Miller)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Molecular Aspects of Biological Development This is the transcript of an informal workshop on The Molecular Aspects of Development held at the Nittany Lion Inn of The Pennsylvania State University, University Park, Pennsylvania, on July 19-21, 1965. It was organized by The Pennsylvania State University Biophysics Department under the sponsorship of the University and the National Aeronautics and Space Administration. Its purpose was to bring together scientists actively doing research in different areas of differentiation and development. Researchers from several disciplines doing work on many different biological systems were invited to give presentations of their work. These presentations were informal and discussion was invited at all times. In addition to those invited to give talks, participants were invited from many related departments at the University. A complete list of all participants is given following this preface. This conference reflects the growing interest in the problems of differentiation and development as attacked from the molecular point of view. The combined backgrounds and methods of many disciplines such as biochemistry, biophysics, cell biology, genetics, microbiology, physical chemistry, physics, mathematics and others are being brought to bear on this problem and the potential reward is great. An interdisciplinary approach to this problem is necessary and should be emphasized. Free informal communication between scientists with differing backgrounds and viewpoints is essential. We feel that this conference was a successful step in that direction and as such was valuable to all participants. We hope that this publication of the presentations and discussions will be useful to the student, teacher and researcher who is interested in the problem of development in biological systems. The conference was taped and transcribed. Each...
